## **DETAILED ACTION**

### ***Claim Objections***

1. Claim 1 is objected to because of the following informalities: there is no antecedent basis for "the attachment of cylindrical bristles to floss". Appropriate correction is required.

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Lloyd.

Lloyd discloses dental floss (18) that includes cylindrical bristles (12) attached to it, as discussed in column 4, lines 4-11. Note: the applicant is advised that any action following the words "for", "to", or "in order to" in the claims indicates an intended use for the product and does not limit the structure of the product in the claims.

4. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Rees.

Rees discloses dental floss (3) that includes cylindrical bristles (5) attached to it, as discussed in column 1, line 66 to column 2, line 18. Note: the applicant is advised

that any action following the words "for", "to", or "in order to" in the claims indicates an intended use for the product and does not limit the structure of the product in the claims.

### ***Conclusion***

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Weihrauch and Harada disclose floss with bristles attached to it.
